Meeting concerns:

Peggy asked for suggestions for how to announce events at meetings; people offered suggestions.

Deb G asked: for any experience, strength, and hope around how to transition into hybrid meetings; possibly someone could create a guide or committee; people can announce at meetings and if there is any interest people can email Amy L at meetings@socalda.org

Amy L asked how people are handling the treasury commitment for online meetings. Her group has discussed opening up a bank account or a paypal. Maybe others need support around this as well.

General service office might have some helpful information

How do people separate digital money from their personal finances?

The group discussed the difficulties of opening up a bank account for 12 step groups

The group discussed having separate wallets on paypal

Can open a club account; need 3 people to go in and sign up at the bank

The group discussed possible solutions and suggestions, but no clear decision was made
